Hello Scott,

Lilly Lake Farm has done it again! I was very impressed with trying your CBD and now that you introduced me to the gummies...I am doubly impressed. I was hesitant with gummies, as the one I had tried in the past, were a bit firmer and hard to chew. It also had the aftertaste that I don't care for.

Your gummies are soft and chewy and both flavors I have tried, Orange and Blueberry Pomegranate are delicious. They have a true flavor and not an artificial one. The Blueberry Pomegranate are my absolute favorite! Sometimes I feel like I am eating candy!

I take one about an hour before going to bed. It calms me down to where I feel my head doesn't race with thoughts. I get a great night sleep and feel refreshed in the morning!

Great job!!
